Compensation Cost Adjustment			3,275	3,275
Total Proposed Budget	230.6		67,359	67,359

PERFORMANCE LEVEL CHANGE DESCRIPTIONS**Critical Computer Application Assessment**

An additional \$715,000 is provided for a feasibility study of combining the department's accounting system with AFRS (Agency Financial Reporting System). The study, coordinated with the Office of Financial Management, will make recommendations on how the department's financial management requirements could be met in a common system. It will provide various alternatives, along with their costs, benefits, risks, timelines, etc. (Motor Vehicle Account-State)

TRANSPORTATION

Eagle Harbor Hydraulic System Support

The Washington State Ferry System will develop in-house expertise in hydraulic systems and programmable logic controller technology, and support and maintain the department's zero oil spill policy. This item includes the necessary information technology support. (Puget Sound Ferry Operations Account-State)

Ferries Environmental Program

Funding is provided for a position to lead the ferry systems' core environmental team, evaluate needs regarding environmental management, and develop a comprehensive environmental strategy. This item also includes the necessary information technology support. (Puget Sound Ferry Operations Account-State)

ACTIVITY DESCRIPTIONS

Information Technology-Business and Administration

This activity provides executive direction and business and administrative support for information technology functions.

Information Technology-Infrastructure Support

This activity provides support in operating, preserving, and maintaining the Department's information technology infrastructure, including equipment acquisition and installation; mainframe and server operations, including technical support and internet operations; and network management, personal computer support, and data/telecommunications.

Information Technology-Information and Applications

This activity provides software application development and maintenance, including data and resource information management; and program, project, and business application development and support.

Information Technology-New System Development Projects

This activity provides oversight and funds for the development and implementation of new information technology system projects.

Compensation Cost Adjustment

This item reflects proposed compensation and benefit cost adjustments that were not allocated to individual agency activities. The agency will assign these costs to the proper activities after the budget is enacted.
